Changing Your Google Setup

Important Notice to all Current Google Users

The recent updating of our e-commerce service requires a change in your Google setup to insure that you receive payment for your online orders. Failure to make the changes listed below could result in incomplete orders and/or payments. Questions? Please contact our tech support department @ ext. #103

Please review & follow the steps below to insure continuous Google credit card processing. Special attention should be given to Step #3 as this is a critical change.

Google Checkout

To set up your Google Checkout account do the following:

1. Register for a Google Checkout account at <https://checkout.google.com/> (be sure to click on [Information for sellers](#))
2. Obtain a Google Merchant ID and Merchant Key. To find your Merchant Key, sign in to Google Checkout and click the Settings tab, then click Integration. Your Merchant Key will appear under 'Account information.' To find your Merchant ID, sign in to Google Checkout and click the Settings tab. Your Merchant ID will appear under 'Primary contact information.'
3. Login to your Google account and on the Integration Tab set the API Callback URL to <https://www.eventproofs.com/google.php>
4. Set the Callback Method to XML
5. You must set 'Automatically authorize and charge the buyer's credit card' under the preferences tab
6. Save settings and enter the ID & Key into the boxes on this page.
7. Click on "Payment Methods" and select "Google Checkout", click save changes.

Enter Your Google Merchant ID:

Enter Your Google Merchant Key:

Please Note this change!
