## Fulfillment Options

**LustreColor Galleries offers three Commission Free Fulfillment options:**

- **Manual** - Studio handles their online orders themselves - payments & printing.
- **Semi-Auto Fulfillment** - Orders are imported directly into Lab Link Plus or Direct Print by the studio for printing; payments can be handled directly by the studio or through PayPal.
- **Auto Fulfillment** - Orders are imported directly to LustreColor for printing & drop shipping to your clients; payments are processed through studio's PayPal or Google Merchant Credit Card processing services.

## Fulfillment Options

### Semi-Auto Fulfillment

Our Semi-Auto Fulfillment Orders option is perfect for the photographer that wishes to control the online order fulfillment themselves with a minimum amount of work. This service will import all your online orders directly into either our Lab Link Plus or Direct Print ordering program automatically and place the images into the print size layouts ordered by your customer. Once the order is imported, you can then retouch, crop and order your reprints yourself. (See the **Importing Online Orders PDF** for more details.)

Semi-Auto Fulfillment payments can be handled directly by the studio or online through PayPal\* & Google\*. (\*For more info, see our setting up PayPal or Google credit card processing PDF.)
