# Linking Your Online Events to your Studio's Web Site

You can list all your Online Events on your studio's web site by sending your web designer the Custom "Event Link" displayed in your LustreColor Galleries Admin Page.

#1 Go to LustreColor.com and click on the LustreColor Galleries Photographer Login link, then enter your user name & password.

#2 Under the "My Account" tab click on "Event Link"

#3 Next click on the Event Link shortcut and copy for your web designer or send him/her these instructions.

If you would like to place a list of just your events on your web site or just link to it, use the HTML link below. For assistance using this feature please consult you're web designer.
